# 1- Introduction

Trading activities include importing products needed by the Iranian industry in these fields and providing engineering services in the field of supplied products.

In the field of exports, Fardad Chemical Industries Company has taken an important step in the development of exports of petrochemical, refinery and metallurgical products by examining global markets for Iranian products and providing the best possible offers and services for Iranian producers and global companies.

In the field of engineering studies in the related industries, Fardad Chemical Industries Company intends to play a role in the growth of this industry by optimally using the available capacities in Iran and by financing projects through investors from all over the world.

## 2- Trading

The company's trading activity is divided into three general parts, polymers, chemicals and equipment.

### Polymers:

- POM
- EPDM
- PMMA
- Polyether
- Polyamide
- Polystyrene
- Polyurethane
- Polyethylene
- Polycarbonate
- Polypropylene
- Polyolefin Elastomers
- Ethylene Vinyl Acetate

### Chemicals:

- Urea
- Sulfur
- Bitumen
- Ammonia
- Methanol
- Titanium Dioxide
- Poly Ethylene Glycol
- Lauryl Alcohol Ethoxylate

## Trading of various type of equipment related to the chemical industry

- **Valve**
  - Ball Valves
  - Gate Valves
  - Check Valves
  - Globe Valves
  - Pressure Valves
  - Butterfly Valves
  - Diaphragm Valves
- **Pump**
  - Screw Pumps
  - Piston Pumps
  - Booster Pumps
  - Axial Flow Pumps
  - Centrifugal Pumps
  - API Process Pumps
  - ANSI Process Pumps
- **Fitting**
  - Olet
  - Plug
  - Adaptor
  - Reducer
  - Tee type
  - Coupling
  - Cross-type
- **Flange**
- **Instrument**
  - Sensors
  - Actuators
  - Controllers
- **AC & DC Drive**
- **Electro Motors**

### 3- Engineering Services

#### In Collaboration with International Companies in Below Fields:

- Basic & Detail Engineering of Petrochemical and Refinery Plants
- Engineering of Procurements Services
- Market Development, Feasibility Studies and Technology Selection
- Copper Extraction Processes
- Water Treatment Industries Systems
- Waste Water Treatment Systems
- Solar Power Plant

## Cooperation with domestic companies in the field of engineering studies:

- Providing engineering services to match Iranian products with European standards.
- Providing engineering services for the localization of high-tech processes by world-renowned companies

## 4- Procurement Services

**In Collaboration with International Companies in Below Fields:**

- Providing Special Equipment to Petrochemical and Refinery Plants
- Providing Special Equipment to Mineral Industries Plants
- Providing special equipment to Solar Power Plants
- Providing special Equipment to Waste Water Treatment Industry Plants

## 5- Future Plans

- International Financing Arrangements of Industrial Projects
- International Financing of Petrochemical, Refinery Fix and Rotary Equipment
- International Engineering Collaboration in Industrial Projects
- Network Marketing of Polymeric and Chemical Products in European and Asian Countries
- Investing in Startup Ideas in Petrochemical, Refinery, Mineral and Water Industries
- Opening International Office in Budapest-Hungary
